

PERSONALLY CUSTOMIZABLE CREDIT CARD ACCOUNTS

ABSTRACT OF THE DISCLOSURE

5 Account holders may specify vendor-specific charge
restrictions for charging transactions against their
accounts, where each vendor-specific charge restriction
includes a unique identifier for the corresponding vendor to
10 which the charge restriction is applicable. The charge
restriction may be an exclusion from approval of all charge
authorization requests, an amount limit on charge
authorization requests which may be approved, a "rebill"
15 limit on the number of times subsequent charge authorization
requests may be approved, or a combination of such
restrictions and/or other restrictions. When a charge
authorization request is received for a charge against an
account having vendor-specific charge restrictions set by
20 the account holder, the vendor identifier is extracted from
the charge authorization request and employed to determine
whether any charge restrictions are applicable to the
requesting vendor. The vendor-specific charge restrictions
for a particular vendor may be specified by the account
holder either before or after an initial charge transactions
25 involving that vendor, with the vendor identifier either
manually entered by the account holder or automatically
extracted from an account transaction record.
